

Academic Performance Scholarship

CHIU CHI SHING

Associate of Engineering

Chi Shing said he was uplifted by UOWCHK from a feeling of despair. A good performer for years, he was struck by his poor DSE exam results. After entering this College to study the Associate of Engineering programme, however, Chi Shing experienced great inspirations from the teachers' patient guidance and encouragement. With his self-confidence re-ignited, he devoted whole-heartedly to his studies once again. Very soon, his good academic performance came back to him. In the first semester of his study in the programme, he achieved the full mark of 4.0 in Semester GPA and he has maintained it within the top boundary region in the following semesters. This good performance earned him a place on the Principal's List and now this scholarship.
